Q: Can I give this URL to anyone to write a review for me?

A: Actually, no, and that's good for you. The reason is because this is a Verified Authentic review site. We only provide access to the "write a review" portion to customers who have gone through the ReviewBuzz site and abandoned a review. This is how we can guarantee that these are your real customers writing real reviews!

Q: Will my employees get points for a review posted on this site?

A: Absolutely! We award the same number of points (500) for reviews posted on this site just like any other.
